Cautionary Statement

Forward-Looking Statements

This press release contains forward-looking statements, including guidance for fiscal year 2018 and 2019, within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements are based on Limoneira's current expectations about future events and can be identified by terms such as "expect," "may," "anticipate," "intend," "should be," "will be," "is likely to," "strive to," and similar expressions referring to future periods.

Limoneira believes the expectations reflected in the forward-looking statements are reasonable but cannot guarantee future results, level of activity, performance or achievements. Actual results may differ materially from those expressed or implied in the forward-looking statements. Therefore, Limoneira cautions you against relying on any of these forward-looking statements. Factors which may cause future outcomes to differ materially from those foreseen in forward-looking statements include, but are not limited to: changes in laws, regulations, rules, quotas, tariffs and import laws; weather conditions that affect production, transportation, storage, import and export of fresh product; increased pressure from crop disease, insects and other pests; disruption of water supplies or changes in water allocations; pricing and supply of raw materials and products; market responses to industry volume pressures; pricing and supply of energy; changes in interest and currency exchange rates; availability of financing for land development activities; political changes and economic crises; international conflict; acts of terrorism; labor disruptions, strikes or work stoppages; loss of important intellectual property rights; inability to pay debt obligations; inability to engage in certain transactions due to restrictive covenants in debt instruments; government restrictions on land use; and market and pricing risks due to concentrated ownership of stock. Other risks and uncertainties include those that are described in Limoneira's SEC filings which are available on the SEC's website at <http://www.sec.gov>. Limoneira undertakes no obligation to subsequently update or revise the forward-looking statements made in this press release, except as required by law.

Non-GAAP Financial Measures

Due to significant depreciable assets associated with the nature of the Company's operations and interest costs associated with its capital structure, management believes that earnings before interest, income taxes, depreciation and amortization ("EBITDA") and adjusted EBITDA, which excludes impairments on real estate development assets when applicable, is an important measure to evaluate the Company's results of operations between periods on a more comparable basis. Such measurements are not prepared in accordance with U.S. generally accepted accounting principles ("GAAP") and should not be construed as an alternative to reported results determined in accordance with GAAP. The non-GAAP information provided is unique to the Company and may not be consistent with methodologies used by other companies. With respect to our expectations under "Fiscal Year 2019 Outlook" above, the Company has not provided a reconciliation of forward-looking non-GAAP measures, primarily due to variability and difficulty in making accurate forecasts and projections, as not all of the information necessary for a quantitative reconciliation is available to the Company without unreasonable efforts. EBITDA and adjusted EBITDA is summarized and reconciled to net (loss) income attributable to Limoneira Company, which management considers to be the most directly comparable financial measure calculated and presented in accordance with GAAP as follows (in thousands):

Fiscal Year 2019 Guidance*

- The Company expects to sell:
 - **Lemons:** Between 8.4 million and 9.0 million cartons of fresh lemons globally including international affiliates
 - This includes 5.2 million to 5.5 million cartons of fresh domestic lemons.
 - Currently experiencing price fluctuations based on size of fresh lemons between \$18 and \$30 a carton and the lower priced large fruit currently selling is flowing through the sales pipeline slower than previously expected due to amount of large fruit in the overall industry.
 - Each movement of \$0.50 per annual carton of fresh lemons in fiscal 2019, it equates to an approximate \$1.0 million change in adjusted EBITDA and \$0.04 change in earnings per share and adjusted earnings per share.
 - **Avocados:** Between 1.7 million and 2.0 million pounds of avocados at approximately \$1.20 per pound
 - Due to excessive heat in the summer of 2018, the Company expects minimal revenue in Fiscal Year 2019 but expects strong production in Fiscal Year 2020
 - **Oranges:** The current unfavorable domestic conditions for oranges has resulted in significantly lower than expected pricing in the orange market for Fiscal Year 2019
- **Operating Income** for Fiscal Year 2019 is expected to be approximately \$7.5 million to \$12.5 million
- **Adjusted EBITDA** for Fiscal Year 2019 is expected to be approximately \$17.0 million to \$22.0 million
- **Earnings per Share** is expected to be in the range of \$0.33 to \$0.53 per diluted share
- **Adjusted Earnings per Diluted Share** for Fiscal Year 2019 is expected to be in the range of \$0.25 to \$0.45
 - Does not include the potential impact of mark to market changes in the value of its 250,000 shares of Calavo or equity earnings benefit from the Harvest at Limoneira project
